Message

I am deeply disappointed and ashamed of Gov. Cooper's recent caving into the bribery of Duke Energy and his political approval of something so damaging to the natural beauty and health of North Carolina as the Water Quality approval you GAVE AWAY to the Atlantic Coast Pipeline. I drove the entire length of DAPLY in 2016 from Patoka, IL to North Dakota. I can tell you it was an UGLY, UGLY destruction of farmland, waterways ...the Des Moines, Illinois and Mississippi Rivers, not to mention what the people's homes now have to contest with along with the constant worry and the actuality of pipes leaking. And they WILL leak. Not if, WHEN. It happened for DAPL a short time after the forced evacuation of the Water Protectors. Gov. Cooper: we thought YOU were our water protector, the defender of all that is the beauty and identity and health of North Carolina. Have you fooled us? This is political suicide you know. Folks are full up of politicians promising to care for and defend their regions only to cave to monied interests. Get your integrity back and stand up for the state of North Carolina NOT big oil.
